

Rainbows

After it rains, and if you are very lucky, you may see a rainbow. Rainbows are beautiful. There are 7 colours in a rainbow? Do you know what they are? The colours in a rainbow are; violet, indigo, blue, green, yellow, orange and red.

There are many stories about rainbows and some people **believe** there is a pot of gold at the end of the rainbow. Do you believe there is a pot of gold at the end of the rainbow?

Really rainbows are light from the sun hitting the rain. The water **splits** the light into **different** colours.

To see a rainbow, there must be 3 things:

1. It is raining.
2. The sun is **shining**.
3. You must be between the sun and the rain
