

Seasons and Weather

Seasons are different times of the year when the **weather** changes. In cold countries there are 4 **seasons**; **Spring**, **Summer**, **Autumn** and **Winter**. In hot countries there are 2 seasons; **Hot season** and **Rainy Season**.

In **Spring**, the weather is fresh. Flowers open and everything is beautiful and green.

In **Summer**, the weather is hot. The sun is high in the sky and the sky are blue.

In **Autumn** the weather turns cold and the leaves change from green to red and orange and fall off the trees. **Autumn** is very beautiful.

In **Winter**, everything is white and very cold. Children play in the snow and make snowmen. Winter is very beautiful too.
