FCE Describing Photos 1

Describing the first picture
Hmm... let me see. In the first picture we can see a group of people sitting under a big tree. It looks like the summer and everyone looks very relaxed.

Describing the second picture
In the second picture there are a lot of people sunbathing on the beach. In the background, we can see lots of apartments. The beach is really crowded.

Comparing the pictures
Obviously, both photos were taken in the summertime and maybe the common theme is eeerrr... about what people like doing in the holidays.

Contrasting the pictures
The scene in the first photo looks very peaceful. On the other hand, the beach scene looks very noisy and chaotic.

Speculating
Maybe the people in the second picture are on a package holiday and normally they live in cities, whereas the people sitting under the tree live in the country. They could be farmers or something.

Personal feelings
Personally, I'd rather be in the first photo. It looks like a perfect way to spend a summer's afternoon. The scene at the beach... well... it's my idea of a nightmare... I mean I like going to the beach but I don't really like crowds
