A Questionnaire for Tourists

Introduction

"You and two classmates are going to make your own questionnaire to ask tourists visiting your city. When they are ready, we will go to the city centre and spend an hour interviewing tourists. We will then give presentations talking about the results of the questionnaire and your experience speaking English to tourists."

Procedure

Part 1 - Interviewing Tourists

1) In groups of three, prepare a questionnaire using Microsoft Word or any other word processor.

2) You will need to bring a clip board the day of the visit to the city centre.
   Remember:-
   To be polite to tourists even if they are not polite to you.
   Don't insist if the person obviously does not want to cooperate.

Part 2 - Explaining your Results

In your presentation you will need to:-
   Show your questions
   Show the answers
   Explain the results
   Say where the tourists were from
   So how easy or not it was to understand them
   Say whether the tourists were friendly or rude
   Say how you felt about talking English in a real situation.

You may use Powerpoint for your presentation.
