Aliens Visit Earth

One day last autumn I was walking along a road in the country. It was five o'clock in the afternoon and getting dark. Suddenly, I saw strange lights in the sky. I was very frightened. I ran towards a forest to hide but unfortunately a strange craft landed in front of me. Three pink and hairy beings from outer space got out of the ship. They said, "Hello. Can you tell us how to get to Washington, please?"

I was so scared I ran away without answering their question. They started shouting and the last thing I heard was, "Come back, you idiot! We are trying to save your planet."
